

# MAYLANDS

22 March 2020

## Hi Parents and Families,

I'm so excited that you get this opportunity to grow and learn WITH your family at home. Please take this opportunity to find freedom in worshipping God, pick a time when your child is content and not tired. Take a break if the kids are not engaged and try again another time. You can begin this Sunday with a different way to worship: singing and dancing in the lounge room, going for a walk together, painting while listening to worship music, laying down and looking up at the clouds, or pass a ball around and say a praise to God when you catch it!

If you have kids of various ages just pick one of these lessons and complete as a family, both resources can be adjusted for different ages.
