

We often refer to God as our Father. However, this week as I have prepared for Mothers Day, it has been on my mind that we are all made in the image of God so when he created Mothers, he chose to reveal yet another aspect of his nature. From birthing new life into this world (God the creator) and nursing (God nurtures, sustains and comforts) to a Mother's love which is unconditional, fierce and protective of her young.

**Isiah 66:11 -13
Mathew 23:37.**

We see the willingness of Jesus to sacrifice his life for us, just as a Mother would for her children, and we have the constant availability of the Holy Spirit as comforter and councillor - all Motherly qualities.

This playlist is a tribute to the Mothers and Mother figures in our lives who reflect the "Mother" heart of God; who is always for us, always with us and always working for our good.

**Blessings
Jess xx**
